

*Evergreen involves a conscious decision to slow down, simplify, revel in nature and live lightly within it*

Evergreen is a step back in time to when life was "Simply Bowen". Homes were modest, landscapes were natural and time was spent with family. At Evergreen we are creating a neighbourhood of smaller houses, leaving the natural landscape intact and relying on green design technologies to minimize our environmental impact.

The Ridge at Evergreen is set a top a bluff overlooking the dramatic island coastline and vivid west coast sunsets. Design and build your home in an enclave of beautifully crafted and sustainably designed homes, protected by parkland and never ending views. It's a place your family will enjoy for generations.
